Subject: RE: Ugly Ripe Tomatoes

RE the above having the right to be sent outside of the FL vicinity. I can't begin to tell you how much I and my family would appreciate seeing an abundance of these wonderful tomatoes in our market in the Buffalo, NY area. There is simply no other tomato that tastes as good as this product.

My husband and I are in our seventies, and we remember years ago what a really good tomato tastes like. No longer can these be obtained. I can actually get a good taste again from these tomatoes and they make a meal or a snack worth looking forward to again. These days there is little else in life than a good meal. We abide failing health, huge property taxes, expensive health care, and far too many pills to keep us going. Not to mention this country is in a mess along with the rest of the world.

At least make a small concession to the happiness of the ordinary household with a good tomato on the table. It's absolutely un American keeping a certain product from expanding its borders. Let the customers decide.
